

Internet

WaveConnect - Safe, Secure filtered Internet for Primary and Secondary Schools.

**Superb service and support.
Great value too!**

“ From the moment we decided to go with Wave 9, I knew it was the right move. Communication was great, the install went smoothly, and the service has been faultless.

Inny Choudhury

About us

Wave 9 is one of the fastest growing education broadband providers in the UK, with hundreds of satisfied school customers.

We use our knowledge and expertise, gained from many years experience of delivering internet services to schools to offer each of our customers the most appropriate connectivity, at the best possible price, taking into account your schools requirements as well as your budget.

Features

WaveConnect Internet includes our WaveProtect online safety and security service to protect your data, systems, staff, pupils and visitors. The service is designed and configured to fully meet the needs of UK schools and help ensure compliance with Keeping Children Safe in Education and the PREVENT directive.

Our experienced project team manages the whole installation process. Once installed your service is fully supported by our helpdesk and onsite engineering team to keep your connected, protected and productive. Your IT team can manage your firewall and filter with our help if they prefer – the best of both worlds!

What this means for you

- Cost effective, robust connectivity to support teaching, learning and administration
- Market leading internet security to keep users and data safe and secure
- Web filtering that helps fulfil your safeguarding and PREVENT duties
- Fully supported but the ability to locally manage if preferred

What our customers think

“ Wave 9 were brilliant, and together there were no issues we couldn't overcome.

Mark Weller
