WaveConnect - MiaaS Managed Infrastructure as a Service.

About Us

Wave 9 is one of the UK's most respected IT Specialists focusing on the Education Sector. Our core services include Secure Managed Internet, Firewalls, Web-Filtering, Safeguarding, Network and Telecoms – all compliant with the latest DFE standards.

We use our knowledge and expertise, gained from many years' experience of delivering services to schools to offer each of our customers the most appropriate compliant services, at the best possible price. We align charging to meet your budgets without compromising on service quality. With a 98%+ customer renewal rate, our record speaks for itself.

Features

Our Managed Infrastructure as a Service solution replaces all or part of your aging Wireless and Switch network with modern, secure, managed hardware to bring you up to date with DFE standards for a simple annual charge designed to fit your budget.

An initial survey will identify which elements of your network are no longer fit for purpose or insecure and an upgrade or replacement strategy proposed. All professional services, installation, configuration, hardware, licencing, management and support are included in an affordable annual charge. We can also bring your cabling up to date if required. VLAN, BYOD, SSID configuration is all included.

A variety of hardware vendors as supported, meaning you have access to the latest solutions with advanced features such as cloud management, WiFi 6, Multi Gigabit speeds, advanced security and authentication features.

Management and Support

Like all of our services, there are no hidden charges. All adds moves changes and unlimited helpdesk are included and you have the facility to manage the system yourself if required. We monitor and patch the system as required to ensure your network is secure.

What this means for you

Modern, fast, reliable and secure networking provided as managed service. No upfront or lease costs and warranted and supported for the length of the contract
